

Forging a path to their future! Circa 2012 Washington Crossing Park

## B.O.Y.D. Summer Enrichment Program

Don't let your child's brain freeze over the summer. Keep it as hot as the summer days.

\$125 per week

Monday- Friday

7:45am - 5:00pm

July 1-August 23

Occasional overnight trips.

Ages 9-16

Interns from the College of New Jersey gave students of B.O.Y.D. a tour of the campus as well as a lesson of how to "use college, don't let college use you."

### Educate. Empower. Enrich.

**Book Club:** Many times children read silently and we never know if they understand or hear other points of view. We will all read books and have group discussions.

- the Edumacation of Jay Baker~Jay Clark
- the Other Wes Moore~ Wes Moore
- The Test~Bluford High series
- Slam~Walter Dean Myers
- Sold~Patricia McCormick
- And many others

**Writing Club:** Often students stumble when writing. Our writing club will allow them to write short stories, persuasive essays, and be creative. As they write they will be critiqued by classmates to strive for the perfect paper.

**Science & Technology:** So your child likes to create, explore and get their hands dirty? We will discover how to make compost, understand the laws of gravity and have a little bit of fun with physics.

**Critical Thinking:** Ever ask your child to think before they answer and the answer is still, "I don't know." Your child will get a deeper understanding of new information and learn how to think critically before speaking, acting and moving.

**Educational Trips:** We'll save the amusement for the parents. Our trips are built for students to see the possibilities if they put education first. From scavenger hunts, to historical excursions and college tours, your child will be ahead of the game when September gets here.
